

KT ROTARY PISTON PUMP OIL FILTRATION SYSTEM

Receive a factory-installed oil filtration system at no cost when you upgrade a competitor's product to a Kinney KT Piston Pump! The Kinney KT piston pump oil filtration system is designed to help you save on maintenance costs and reduce downtime. As with every Kinney KT piston pump, the integral, positive lubrication system ensures reliable lubrication at all pressure levels.

KT OIL FILTRATION SYSTEM BENEFITS

- Change oil less frequently - lower maintenance, less oil purchases and oil disposal costs
- Extends the life of seals, bearings and internal rotating parts – decrease downtime and save on maintenance costs
- Visual indicator shows when filter should be changed – prevent unplanned downtime
- Built-in bypass keeps oil flowing even when filter is plugged – peace of mind
- Eliminate hassle, leaks of mobile cart filtration
- Available as a retrofit kit for all existing Kinney KT piston pump products
